- In November, Abbott initiated the U.S. launch of FreeStyle[®] Libre, the only continuous glucose monitoring (CGM) system available that comes factory-calibrated and

In Heart Failure, sales growth was led by market uptake of Abbott's HeartMate 3[™] system, which received U.S. FDA approval in the third quarter of 2017. In Neuromodulation, strong double-digit growth was led by several recently launched products for the treatment of chronic pain and movement disorders.

In the fourth quarter, in Rhythm Management, Abbott received U.S. FDA approval for MR-conditional labeling for its Quadra Assura and Quadra Assura MP cardiac resynchronization therapy defibrillator (CRT-D) devices and its Fortify Assura implantable cardioverter defibrillator (ICD).  2017 Tax expense on Earnings from Continuing Operations includes net expense of \$1.46 billion for the estimated impact of U.S. tax reform. The provisional estimate of the impact of U.S. tax reform is based on Abbott's initial analysis of the Tax Cuts and Jobs Act and may be adjusted in future periods due to, among other things, additional analysis performed by Abbott and additional guidance that may be issued by the U.S. Department of the Treasury.

- 2) 2017 and 2016 Earnings and Diluted Earnings per Common Share from Discontinued Operations primarily reflect net favorable adjustments to tax expense as a result of the resolution of various tax positions from previous years related to discontinued operations.
- 3) 2017 Earnings from Continuing Operations, excluding Specified Items, excludes net after-tax charges of \$2.167 billion, or \$1.24 per share, for the estimated impact of U.S. tax reform, intangible amortization expense and expenses primarily associated with acquisitions, restructuring actions and other expenses.

2016 Earnings from Continuing Operations, excluding Specified Items, excludes net after-tax charges of \$206 million, or \$0.14 per share, for intangible amortization expense, expenses primarily associated with acquisitions, including bridge facility fees and other debt related costs, charges related to cost reduction initiatives and other expenses.

4) 2017 Average number of common shares outstanding excludes approximately 12.2 million shares related to dilutive common stock options, which would be antidilutive as a result of the loss in the quarter.

- 1) 2016 Net foreign exchange (gain) loss includes a loss of \$480 million related to the revaluation of Abbott's net monetary assets in Venezuela using the Dicom exchange rate, which is the Venezuelan government's official floating exchange rate.
- 2) 2017 Other (income) expense, net includes a pretax gain of \$1.163 billion from the sale of the AMO business. 2016 Other (income) expense, net includes a charge of \$947 million related to an adjustment of Abbott's holdings of Mylan N.V. ordinary shares to reflect the share price as of Sept. 30, 2016.
- 3) 2017 Tax expense on Earnings from Continuing Operations includes the net expense of \$1.46 billion for the estimated impact of U.S. tax reform, as well as the tax associated with a \$1.163 billion pretax gain on the sale of the AMO business. The provisional estimate of the impact of U.S. tax reform is based on Abbott's initial analysis of the Tax Cuts and Jobs Act and may be adjusted in future periods due to, among other things, additional analysis performed by Abbott and additional guidance that may be issued by the U.S. Department of the Treasury.

2016 Tax expense on Earnings from Continuing Operations includes the impact of a net tax benefit of approximately \$225 million, primarily as a result of the resolution of various tax positions from prior years, partially offset by the unfavorable impact of non-deductible foreign exchange losses related to Venezuela and an adjustment to the equity investment in Mylan and the recognition of deferred taxes associated with the sale of the AMO business.

- 4) 2017 and 2016 Earnings, net of taxes and Diluted Earnings per Common Share from Discontinued Operations, primarily relates to a net tax benefit as a result of the resolution of various tax positions from prior years.
- 5) 2017 Earnings and Diluted Earnings per Common Share from Continuing Operations, excluding Specified Items, excludes net after-tax charges of \$4.047 billion, or \$2.30 per share, for the estimated impact of U.S. tax reform, intangible amortization expense and other expenses primarily associated with acquisitions and restructuring actions, partially offset by a gain on the sale of the AMO business.

2016 Earnings and Diluted Earnings per Common Share from Continuing Operations, excluding Specified Items, excludes net after-tax charges of \$2.218 billion, or \$1.49 per share, for intangible amortization expense, the foreign exchange loss related to Venezuela, an adjustment to the equity investment in Mylan, expenses associated with acquisitions, including bridge facility fees, other charges related to cost reduction initiatives and other expenses and the recognition of deferred taxes associated with the sale of AMO, partially offset by the favorable impact of a net tax benefit as a result of the resolution of various tax positions from prior years.
