ABBOTT REPORTS THIRD-QUARTER 2022 RESULTS AND RAISES FULL-YEAR EPS GUIDANCE

- Worldwide sales of \$10.4 billion in the third quarter
- Raises full-year earnings-per-share guidance
- Continues to strengthen portfolio with new product approvals and launches

ABBOTT PARK, III., Oct. 19, 2022 /<u>PRNewswire</u>/ -- Abbott (NYSE: ABT) today announced financial results for the third quarter ended Sept. 30, 2022.

- Third-quarter sales of \$10.4 billion decreased 4.7 percent on a reported basis and increased 1.3 percent on an organic basis, which excludes the impact of foreign exchange.
- GAAP diluted EPS¹ was \$0.81 in the third quarter. Excluding specified items, adjusted diluted EPS was \$1.15.
- Abbott is raising its full-year 2022 EPS guidance. Abbott projects full-year diluted EPS on a GAAP basis of \$3.75 to \$3.81 and projects adjusted diluted EPS of \$5.17 to \$5.23.
- Full-year 2022 guidance assumes COVID-19 testing-related sales of \$7.8 billion, which includes sales of \$7.3 billion through September 2022 and projected sales of \$0.5 billion in the fourth quarter.
- U.S. Medical Devices sales grew 11.3 percent in the third quarter, led by strong double-digit growth in Electrophysiology, Structural Heart and Diabetes Care.
- In September, Abbott presented new data showing its FreeStyle Libre[®] continuous glucose monitoring system helped reduce acute diabetes-related events, leading to a 67 percent decrease in hospitalizations in people with Type 2 diabetes on once-daily (basal) insulin therapy.²
- During the quarter, Abbott launched its latest-generation FreeStyle Libre 3 system in the U.S., which automatically delivers up-to-the-minute glucose readings and unsurpassed 14-day accuracy³ in the world's smallest and thinnest³ wearable sensor.
- During the quarter, following a manufacturing stoppage earlier this year, Abbott restarted production of Similac[®] as well as EleCare[®] and metabolic infant formulas at its Sturgis, Michigan, facility.

"Our results and increased guidance in the current macroeconomic environment reflect the strength of our diversified business model and execution," said Robert B. Ford, chairman and chief executive officer, Abbott. "We're particularly pleased with improving sales growth rates in U.S. Medical Devices, which is being fueled by several recent product launches, as well as continued strong performance in Established Pharmaceuticals."

THIRD-QUARTER BUSINESS OVERVIEW

Note: Management believes that measuring sales growth rates on an organic basis is an appropriate way for investors to best understand the underlying performance of the business. Organic sales growth excludes the impact of foreign exchange.

* Total Abbott sales include Other Sales of approximately \$3 million in 3Q22 and approximately \$8 million in 9M22.

n/a = Not Applicable.

Note: In order to compute results excluding the impact of exchange rates, current year U.S. dollar sales are multiplied or divided, as appropriate, by the current year average foreign exchange rates and then those amounts are multiplied or divided, as appropriate, by the prior year average foreign exchange rates.

Total sales in the third quarter were negatively impacted by year-over-year declines in COVID-19 testing-related sales and a manufacturing stoppage initiated in February of certain infant formula products manufactured at Abbott's Sturgis, Michigan, facility. Excluding COVID-19 testing-related sales⁴ and the U.S. sales associated with the manufacturing stoppage⁵ in the current and prior years, total worldwide sales decreased 0.6 percent on a reported basis and increased 6.0 percent on an organic basis in the third quarter.

Worldwide Nutrition sales decreased 14.9 percent on a reported basis and 10.3 percent on an organic basis in the third quarter. Total worldwide Nutrition and Pediatric Nutrition sales were negatively impacted by a manufacturing stoppage initiated in February of certain infant formula products manufactured at Abbott's Sturgis, Michigan, facility. Abbott resumed production at the facility during the third quarter. International Pediatric sales were negatively impacted by challenging market conditions in China.

In Adult Nutrition, global sales decreased 4.0 percent on a reported basis and increased 2.4 percent on an organic basis, led by Ensure[®], Abbott's market-leading complete and balanced nutrition brand.

Established Pharmaceuticals sales increased 4.9 percent on a reported basis and 12.2 percent on an organic basis in the third quarter.

Key Emerging Markets include several emerging countries that represent the most attractive long-term growth opportunities for Abbott's branded generics product portfolio. Sales in these geographies increased 6.2 percent on a reported basis and 13.0 percent on an organic basis, led by strong growth in several geographies including India, China, Brazil and Vietnam and several therapeutic areas, including cardiometabolic, gastroenterology and central nervous system/pain management.

Other sales increased 1.1 percent on a reported basis and 9.9 percent on an organic basis in the quarter.

| Diabetes Care | 1,165 | 2,320 | 3,485 | 34.7 | 1.2 | 10.4 | 34.7 | 10.9 | 17.4 | |

Worldwide Medical Devices sales decreased 0.5 percent on a reported basis and increased 6.4 percent on an organic basis in the third quarter. Sales growth in the U.S. was led by strong double-digit growth in Electrophysiology, Structural Heart and Diabetes Care. Internationally, sales growth was negatively impacted by intermittent COVID-19 lockdown restrictions in China as well as supply constraints in certain areas, most notably Electrophysiology.

% Change ve 0M21

In Diabetes Care, FreeStyle Libre sales were approximately \$1.0 billion in the quarter, including U.S. growth of more than 40 percent. International FreeStyle Libre sales were negatively impacted by supply constraints of Abbott's first-generation FreeStyle Libre system in certain emerging markets.

ABBOTT'S EARNINGS-PER-SHARE GUIDANCE

Abbott is raising its projected full-year 2022 diluted earnings per share under GAAP to \$3.75 to \$3.81. Abbott forecasts specified items for the full-year 2022 of \$1.42 per share primarily related to intangible amortization, costs related to a voluntary recall, asset impairments, expenses associated with acquisitions, restructurings and cost reduction initiatives and other net expenses. Excluding specified items, Abbott is raising its projected adjusted diluted earnings per share to \$5.17 to \$5.23 for the full-year 2022.

ABBOTT DECLARES 395TH CONSECUTIVE QUARTERLY DIVIDEND

On Sept. 15, 2022, the board of directors of Abbott declared the company's quarterly dividend of \$0.47 per share. Abbott's cash dividend is payable Nov. 15, 2022, to shareholders of record at the close of business on

Oct. 14, 2022.

Abbott has increased its dividend payout for 50 consecutive years and is a member of the S&P 500 Dividend Aristocrats Index, which tracks companies that have annually increased their dividend for at least 25 consecutive years.

About Abbott:

Abbott is a global healthcare leader that helps people live more fully at all stages of life. Our portfolio of lifechanging technologies spans the spectrum of healthcare, with leading businesses and products in diagnostics, medical devices, nutritionals and branded generic medicines. Our 113,000 colleagues serve people in more than 160 countries.

The table above provides additional details regarding the specified items described on tables titled "Non-GAAP Reconciliation of Financial Information."

- a) Acquisition-related expenses include integration costs, which represent incremental costs directly related to integrating the acquired businesses and include expenditures for the integration of systems, processes and business activities.
- b) Restructuring and cost reduction initiative expenses include severance, outplacement, and other direct costs associated with specific restructuring plans and cost reduction initiatives.
- c) Other includes charges related to an impairment of R&D intangible assets acquired in a business combination, incremental costs to comply with the European Union's Medical Device (MDR) and In Vitro Diagnostics Medical Device (IVDR) Regulations for previously approved products and costs related to certain litigation.
- d) Reflects the net tax benefit associated with the specified items.

The table above provides additional details regarding the specified items described on tables titled "Non-GAAP Reconciliation of Financial Information."

a) Acquisition-related expenses include integration costs, which represent incremental costs directly related to

integrating the acquired businesses and include expenditures for the integration of systems, processes and business activities.

- b) Restructuring and cost reduction initiative expenses include severance, outplacement, and other direct costs associated with specific restructuring plans and cost reduction initiatives. Restructuring and cost reduction plans consist of distinct initiatives to streamline operations including the consolidation and rationalization of business activities and facilities, workforce reductions, the transfer of product lines between manufacturing facilities, and the transfer of other business activities between sites. The Gross Margin amount includes a credit associated with a change in estimate to the charges taken in the second quarter of 2021 for a restructuring plan related to Abbott's manufacturing network for COVID-19 diagnostic tests to reflect current and projected demand.
- c) Other includes incremental costs to comply with the European Union's MDR and IVDR Regulations for previously approved products.
- d) Reflects the net tax benefit associated with the specified items and excess tax benefits associated with share-based compensation.
