

ABBOTT AND WEIGHTWATCHERS CONNECTED APP EXPERIENCE IS NOW AVAILABLE FOR PEOPLE LIVING WITH DIABETES

- The #1 prescribed continuous glucose monitoring (CGM) system¹ now connects to the #1 doctor-recommended weight management plan² to help people living with diabetes understand how food and activity impact their glucose levels
- WeightWatchers Diabetes-Tailored Plan members can now see key glucose data^{3,4,5} from Abbott's FreeStyle Libre[®] 2 system within the WW app⁶

ABBOTT PARK, Ill. and NEW YORK, Sept. 19, 2023 /PRNewswire/ -- [Abbott](#) (NYSE: ABT) and [WW International, Inc.](#) (NASDAQ: WW), known as WeightWatchers, announced today the availability of a connected app to help people living with diabetes understand how food and activity impact their glucose levels. WeightWatchers members who follow the WW Diabetes-Tailored Plan can now access their glucose data^{3,4,5} from Abbott's FreeStyle Libre[®] 2, a continuous glucose monitoring (CGM) system, within their WW app⁶ while being guided by the WW Diabetes-Tailored Plan.

Type 2 diabetes is on the rise, and according to the [Centers for Disease Control and Prevention](#), more than 37 million Americans have diabetes and approximately 90 percent of those people have Type 2 diabetes⁷. Some of the risk factors for Type 2 diabetes include lifestyle decisions that pertain to food, activity, and weight. If managed successfully, healthy lifestyle choices can decrease the chances of diabetes-related complications or comorbidities.

Maintaining a healthy weight is key to glucose control, which is especially important for people living with Type 2 diabetes who want to improve their overall well-being and prevent the progression of the condition.

"Clinical data shows that healthy weight loss leads to a reduction of average glucose which is important for people living with diabetes," said Dr. Mahmood Kazemi, chief medical officer for Abbott's diabetes care business. "Abbott and WeightWatchers both have a long history of helping people live healthier lives. Through our partnership, members of the WW Diabetes-Tailored Plan can see within one app how food and activity impact their glucose levels with data backed by our FreeStyle Libre 2 system, so they can make healthy lifestyle choices. "

"WeightWatchers is the #1 doctor recommended weight-management program², and our WW Diabetes-Tailored Plan has been proven to reduce members hemoglobin A1c by 0.76 and decrease diabetes distress by 9.8 percent⁸," said Gary Foster, chief scientific officer for WeightWatchers. "Together, our two trusted brands are helping people living with Type 2 diabetes better understand and manage their chronic condition and gain control of their health while still enjoying the foods they love."

The WW Diabetes-Tailored Plan, designed by WW's team of nutrition and behavioral science experts helps those living with Type 2 diabetes form helpful habits and meet their health goals for lasting change. The WW Diabetes-Tailored Plan has been shown to help people living with diabetes lose weight and lower their hemoglobin A1c,^{9,10} a test that reflects average glucose levels for the past three months. The higher a person's hemoglobin A1c level is, the higher their risk is for diabetes complications.

From now until Dec. 31, 2023, new WW members can enjoy a free month¹¹ of the WeightWatchers Diabetes-Tailored Plan and connect the WW app with the FreeStyle Libre 2 system. Any new FreeStyle Libre 2 users may be eligible to receive a voucher for a free¹¹ trial of the FreeStyle Libre 2 system when they sign up for the MyFreeStyle Libre program¹².

To sign up for each of these offers and to learn more about the connected app experience, visit ww.com/diabetesconnection.

The FreeStyle Libre portfolio is the number one sensor-based glucose monitoring system in the world¹³ changing the lives of over 5 million people across more than 60 countries¹⁴ by providing breakthrough technology that is accessible and affordable.¹⁵

Important Safety Information

Failure to use the FreeStyle Libre 2 system as instructed in labeling may result in missing a severe low or high glucose event and/or making a treatment decision, resulting in injury. If glucose alarms and readings do not match symptoms or expectations, use a fingerstick value from a blood glucose meter for treatment decisions. Seek medical attention when appropriate or contact Abbott at 855-632-8658 for safety info.

FreeStyle Libre Customer Service:

People in the U.S. who have questions about the FreeStyle Libre portfolio can reach out to Abbott's Customer Service toll-free at 855-632-8658. Agents are available seven days a week from 8 a.m. to 8 p.m. Eastern Time, excluding holidays.

1 Data based on the number of patients assigned to each manufacturer based on last filled prescription in US Retail Pharmacy and DME.

2 Based on a 2020 IQVIA survey of 14,000 doctors who recommend weight-loss programs to patients.

3 The FreeStyle Libre 2 app is only compatible with certain mobile devices and operating systems. Please see the FreeStyle Libre website for more information about device compatibility before using the app. Use of the FreeStyle Libre 2 app requires registration with LibreView.

4 The app can capture data from the sensor when it is within close proximity of the sensor. The proximity and orientation of the antenna in phones varies and the phone will have to be moved around to find the best position for scanning the sensor.

5 The user's device must have internet connectivity for glucose data to be shared with the WW app.

6 The WW and FreeStyle Libre 2, FreeStyle Libre 14 day connected experience is compatible with certain mobile operating systems. Please check the Apple App Store or Google Play Store for more information about WW app operating system requirements.

10 Based on 6-month multicenter trial results from WW Diabetes-Tailored Plan without CGM. Funded by WW International, Inc.

11 After your free 30 day trial, you'll automatically be signed up at the discounted monthly rate of \$14.99 for Core or \$24.99 for Premium unless you cancel before the free trial period ends (midnight Eastern Standard Time on the 30th day of your free trial). Thereafter, your membership will be automatically renewed and you will be charged monthly at the discounted monthly rate for the life of your membership until you cancel. To cancel, visit <https://www.weightwatchers.com/us/marketing/free-trial-cancellation> or call us at 800-651-6000. Offer available only to new and rejoining members who use the FreeStyle Libre 2 system or FreeStyle Libre 14 day system. Discounted monthly rate only available as long as you continue to purchase and use the FreeStyle Libre 2 system or FreeStyle Libre 14 day system with the WW experience. Offer ends 12/31/23. For Premium: Offer available in [participating areas](#) only.

12 Eligible patients will receive one (1) FreeStyle Libre 2 sensor for users with a compatible mobile phone operating system at \$0 copay. The expiration date of the voucher is 60 days from the issue date. This program is available for patients with Type 1, Type 2, or gestational diabetes. Patients ages 18 and older are eligible to sign up and receive an offer for the (1) FreeStyle Libre 2 sensor. Patients ages 4-17 are eligible to receive an offer for the (1) FreeStyle Libre 2 sensor through their parent or guardian. This offer is void where prohibited by law. Abbott may modify or rescind this offer at any time without notice. The discounts are not available to beneficiaries of Kaiser Permanente, Medicare, Medicaid or other federal or state healthcare programs, residents of Massachusetts, or US territories (other than Puerto Rico). The free (1) FreeStyle Libre 2 sensor is provided as a sample and is limited to one sample per eligible person per product identification number. The FreeStyle Libre 2 sensor cannot be re-sold, traded nor submitted to any third-party payer for reimbursement and is not provided as any inducement for future purchases. The free sample card is not health insurance.

13 Data based on the number of users worldwide for FreeStyle Libre family of personal CGMs compared to the number of users for other leading personal CGM brands and based on CGM sales dollars compared to other leading personal CGM brands.

14 Data on file, Abbott Diabetes Care.

15 Based on a comparison of list prices of the FreeStyle Libre 3 iCGM system versus competitors' (i)CGM systems. The actual cost to patients may or may not be lower than other (i)CGM systems, depending on the amount covered by insurance, if any. Abbott provides this information as a courtesy; it is subject to change and interpretation. The customer is ultimately responsible for determining the appropriate codes, coverage, and payment policies for individual patients. Abbott does not guarantee third-party coverage or payment for our products or reimburse customers for claims that are denied by third-party payers.
