

Abbott Reports Second-Quarter 2024 Results And Raises Full-Year Guidance

- Sales of \$10.4 billion driven by strong underlying base business performance
- Reported sales growth of 4.0 percent; organic sales growth for underlying base business of 9.3 percent, led by double-digit growth in Medical Devices
- Continues to strengthen portfolio with new product approvals

ABBOTT PARK, Ill., July 18, 2024 /PRNewswire/ -- Abbott (NYSE: ABT) today announced financial results for the second quarter ended June 30, 2024.

- Second-quarter GAAP diluted EPS of \$0.74 and adjusted diluted EPS of \$1.14, which excludes specified items.
- Abbott raised its full-year 2024 EPS guidance range. Abbott projects full-year diluted EPS on a GAAP basis of \$3.30 to \$3.40 and projects adjusted diluted EPS of \$4.61 to \$4.71.
- Abbott narrowed its full-year 2024 organic sales growth guidance range, excluding COVID-19 testing-related sales, to 9.5% to 10.0%, which represents an increase at the midpoint of the range².
- In April, Abbott announced U.S. Food and Drug Administration (FDA) approval of the Esprit™ below-the-knee (BTK) system, a breakthrough innovation for people living with peripheral artery disease. This system is designed to keep arteries open and deliver a drug to support vessel healing prior to completely dissolving.
- In June, Abbott announced U.S. FDA clearance for two new over-the-counter continuous glucose monitoring systems — Lingo™ and Libre Rio™, which are based on Abbott's world-leading FreeStyle Libre® continuous glucose monitoring technology³.
- In June, Abbott obtained CE Mark for its AVEIR® dual chamber (DR) leadless pacemaker system, the world's first dual chamber leadless pacemaker system that treats people with abnormal or slow heart rhythms.
- During the first half of 2024, Abbott announced 10 new growth opportunities coming from the company's highly productive R&D pipeline. These include a combination of new product approvals and new treatment indications.

"We achieved another quarter of strong growth in our underlying base business," said Robert B. Ford, chairman and chief executive officer, Abbott. "We have a lot of positive momentum heading into the second half of the year and are raising our full-year guidance."

SECOND-QUARTER BUSINESS OVERVIEW

Management believes that measuring sales growth rates on an organic basis, which excludes the impact of foreign exchange, the impact of discontinuing the ZonePerfect® product line in the Nutrition business, and the impact of the acquisition of Cardiovascular Systems, Inc. (CSI) during the first year post-acquisition, is an appropriate way for investors to best understand the core underlying performance of the business. Management further believes that measuring sales growth rates on an organic basis excluding COVID-19 tests is an appropriate way for investors to best understand underlying base business performance as the COVID-19 pandemic has shifted to an endemic state, resulting in significantly lower demand for COVID-19 tests.

Note: In order to compute results excluding the impact of exchange rates, current year U.S. dollar sales are multiplied or divided, as appropriate, by the current year average foreign exchange rates and then those amounts are multiplied or divided, as appropriate, by the prior year average foreign exchange rates.

As expected, Diagnostics sales growth in the second quarter was negatively impacted by year-over-year declines in COVID-19 testing-related sales⁴. Worldwide COVID-19 testing sales were \$102 million in the second quarter of 2024 compared to \$263 million in the second quarter of the prior year.

Excluding COVID-19 testing-related sales, global Diagnostics sales increased 1.8 percent on a reported basis and 5.9 percent on an organic basis.

Excluding COVID-19 testing-related sales, global Core Laboratory Diagnostics sales increased 3.0 percent on a reported basis and 8.8 percent on an organic basis, led by continued strong adoption of Abbott's Alinity[®] family of diagnostics systems and testing portfolios.

ABBOTT'S EARNINGS-PER-SHARE GUIDANCE

Abbott projects full-year 2024 diluted earnings per share under GAAP of \$3.30 to \$3.40. Abbott forecasts specified items for the full-year 2024 of \$1.31 per share primarily related to intangible amortization, restructuring and cost reduction initiatives and other net expenses. Excluding specified items, projected adjusted diluted earnings per share would be \$4.61 to \$4.71 for the full-year 2024.

Abbott projects third-quarter 2024 diluted earnings per share under GAAP of \$0.85 to \$0.89. Abbott forecasts specified items for the third-quarter 2024 of \$0.33 per share primarily related to intangible amortization, restructuring and cost reduction initiatives and other net expenses. Excluding specified items, projected adjusted diluted earnings per share would be \$1.18 to \$1.22 for the third quarter 2024.

ABBOTT DECLARES 402ND CONSECUTIVE QUARTERLY DIVIDEND

On June 14, 2024, the board of directors of Abbott declared the company's quarterly dividend of \$0.55 per share. Abbott's cash dividend is payable Aug. 15, 2024, to shareholders of record at the close of business on July 15, 2024.

Abbott has increased its dividend payout for 52 consecutive years and is a member of the S&P 500 Dividend Aristocrats Index, which tracks companies that have annually increased their dividend for at least 25 consecutive years.

Some statements in this news release may be forward-looking statements for purposes of the Private Securities Litigation Reform Act of 1995. Abbott cautions that these forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those indicated in the forward-looking statements. Economic, competitive, governmental, technological and other factors that may affect Abbott's operations are discussed in Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended Dec. 31, 2023, and are incorporated herein by reference. Abbott undertakes no obligation to release publicly any revisions to forward-looking statements as a result of subsequent events or developments, except as required by law.

- 1 In the second quarter of 2024, total worldwide sales were \$10.377 billion and COVID-19 testing-related sales were \$102 million. In the second quarter of 2023, total worldwide sales were \$9.978 billion and COVID-19 testing-related sales were \$263 million.
- 2 Abbott has not provided the related GAAP financial measure for organic sales growth, excluding COVID-19 testing-related sales, on a forward-looking basis because the company is unable to predict with reasonable certainty the impact of foreign exchange due to the unpredictability of future changes in foreign exchange rates, which could significantly impact reported sales growth. In addition, as the COVID-19 pandemic has shifted to an endemic state, the company has determined that it is unable to predict with reasonable certainty future COVID-19 test sales due to the unpredictability of demand for COVID-19 tests.
